Brevard Traffic Incident Management and Community Traffic Safety Team Meeting Minutes

May 28, 2014
9:00 AM – 11:00 AM

LOCATION: Viera Government Complex
Atlantic Room - Bldg. C – 3rd floor
2725 Judge Fran Jamieson Way
Melbourne, FL 3294

Introductions	❖ Sign In - See attached ❖ Introduction of Team Members
CTST Discussions/ Presentations	❖ Sheryl Bradley - Informed the team briefly about the I-95 speed/aggressive driving: countywide enforcement detail that will be starting June 1, 2014. Ms. Bradley also spoke to the team about CTST meeting dates, times, and locations . It was mentioned that the CTST meeting date be moved to meeting the fourth Wednesday of every month so there is consistency to the meeting time. The CTST team and the TIM team also discussed the possibility of having future meetings sponsored at different local agency locations as an outreach to help increase attendance. ❖ Ms. Kim Smith and the team briefly spoke about the current pedestrian fatality on bicycles and walking. It was stated that the fatality rate for this year is already up by 50% compare to 2013 which the average was only at 10% compared to the national average. Ms. Smith stated they will continue with research on the topic and will share with the teams in the future. Additionally, It was mentioned about a group called WalkSafe which could work along with local agencies in regards to building safety campaigns and public awareness. To learn more about the group, please visit their website at: http://www.walksafe.us/ ❖ Please see attached the District 5 Traffic Fatality Report by countries.
Construction Updates	❖ FDOT - See attached ❖ Brevard County - No updates ❖ Cities - No updates
Maintenance Updates	❖ Transfield Services - Routine maintenance ❖ FDOT Brevard Operations - Routine maintenance ❖ DBI - Routine maintenance
Traffic Incident Reviews	❖ 04/28/2014 - Crash on I-95 NB @ Exit 223: SR 46/Main (256255) - Crash occurred on I-95 Northbound at Exit 223: SR-46/Main Street at 1:02 PM. The crash involved a truck and camper which overturned and resulted in hazardous materials being spilled in Brevard county, going Northbound on I-95 at Exit 223: SR-46/ Main Street which resulted in congestion from at MM 216 to at Exit 223: SR-46/Main Street with off-ramp closed and all lanes blocked. Additionally, all Northbound traffic had to exit at mile marker 220, SR 406. The crash did result in injuries but no fatalities. The total roadway clearance time was 02:06:36 and the total incident clearance time was 02:09:25 ❖ 05/12/2014 - Crash on I-95 NB @ Mile Marker 165 (269902) - Crash occurred in Brevard County, going Northbound on I-95 at mile marker 165 with congestion from at Micco Road to mile marker 165. The crash involved an over turned dump truck which spilled dirt across the roadway. The crash did result in injuries but no fatalities. The total roadway clearance time was 02:28:22 and the total incident clearance time was 02:29:22.

TIM Discussions/ Presentations	❖ Incident Command System (ICS) – Mr. Charles Stratton spoke to the team about ICS. The Incident Command System (ICS) is a systematic tool used for the command, control, and coordination of an emergency response. ICS allows agencies to work together using common terminology and operating procedures for controlling personnel, facilities, equipment, and communications at a single incident scene. ICS requires that one or more individuals maintain authority over all incident activities, known as the Command Function. During minor highway incidents, which often involve just a police officer and a tow truck, the command structure is informal. A single person can typically perform the command function, called the Incident Commander. The formal use of ICS becomes more critical during major highway incidents, which involve multiple agencies (such as those shown to the right). In these cases, more than one person often performs the command function, called Unified Command. The most important detail to remember when it comes to ICS is it's not who is in charge but who's is in charge of what. Please see attached handout called Highway Incident Management Stakeholders and Associated Duties and Responsibilities which gives a breakdown in each agency's role in regards to ICS. Also, the video called "The Many Hats of Highway Incident Management" was shown to the team, and gives a humorous look at the relationships between all those involved in managing a highway incident which was created by Tom Martin, formally with the Department of State Police in Fairfax, Virginia. To view the full video, please visit the following site: http://www.virginiadot.org/info/incidentmanagement.asp. Additionally, please visit the Federal Emergency Management Agency (FEMA) website where ICS courses are available to responders at: http://training.fema.gov/IS/NIMS.aspx
Other	❖ Open Forum - Mr. Charles Stratton informed the team about the free Strategic Highway Research Program (SHRP-2) training. The new multi-agency National TIM Training Program equips responders with a common set of core competencies and assists them in achieving the TIM National Unified Goal of strengthening TIM programs in the areas of responder safety, safe, quick clearance, and prompt, reliable, interoperable communications. The class will include lectures as well as table top activities. The SHRP-2 training took place at the Tri County Orlando Regional Traffic Management Center at 133 S. Semoran Boulevard, Orlando, FL on June 4, 2014. ❖ Next CTST meeting will be held on June 18, 2014 ❖ Next combined meeting will be held on July 23, 2014
